Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Kirkpatrick

DATE: 2 April 1951

ILLEGIB

FROM : Mr. Reber *JRE*

SUBJECT: Intelligence Support for Psychological Warfare

1. The attached Memorandum of Conversation probably should be approved by Mr. Jackson inasmuch as I have prepared it for him on the assumption that it was my responsibility as the junior member at this meeting to prepare the Memorandum of Conversation.

2. I am not aware that Mr. Jackson read the memorandum which I had prepared for this meeting. You may be interested in looking it over and if you think necessary calling it to his attention. It is my plan that we shall continue to watch developments in the psychological field as closely as possible and to work out adequate interagency relations at the working level. We will report on such developments from time to time.

If approved I suggest copies of this go to Wason
